GLOBAL VIEWING TRENDS

COMMENT

Monthly Activity

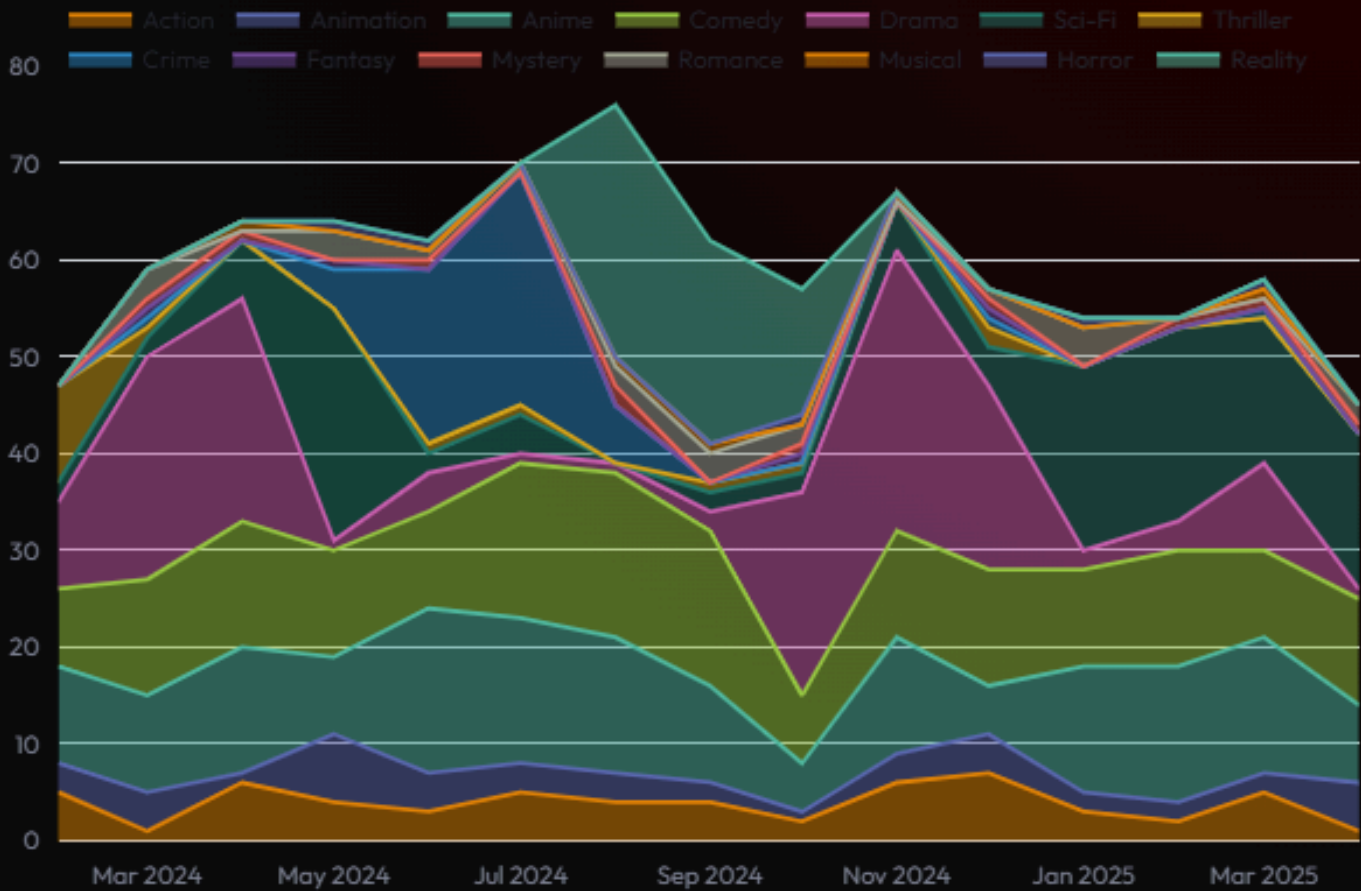

- Viewing volume is generally balanced across the year.
- There is a clear peak in July(summer holidays).

Genre Distribution

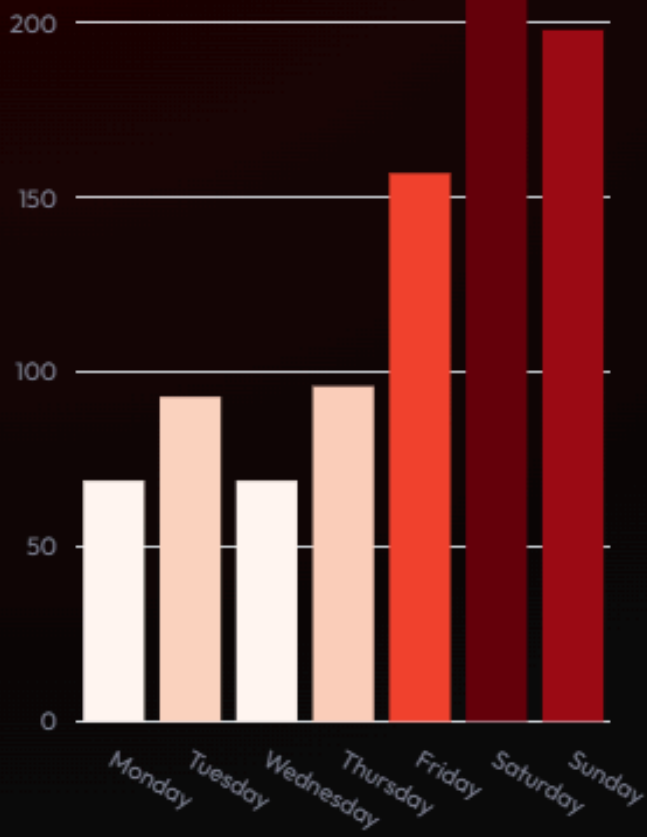

- I mainly watch Comedy and Anime.
- In contrast, I watch very little Action or Reality TV.

BEHAVIORAL PATTERNS

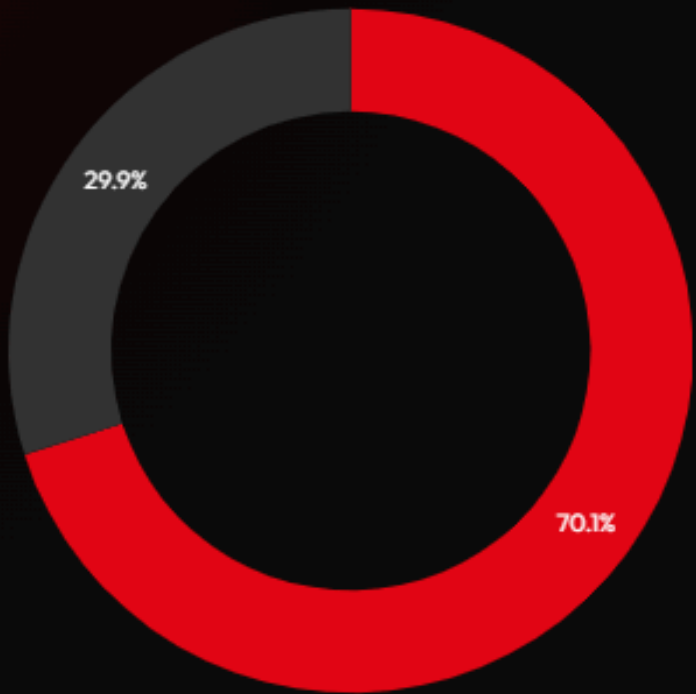

TEMPORAL GENRE EVOLUTION

WEEKLY ACTIVITY

FORMAT RATIO

COMMENT

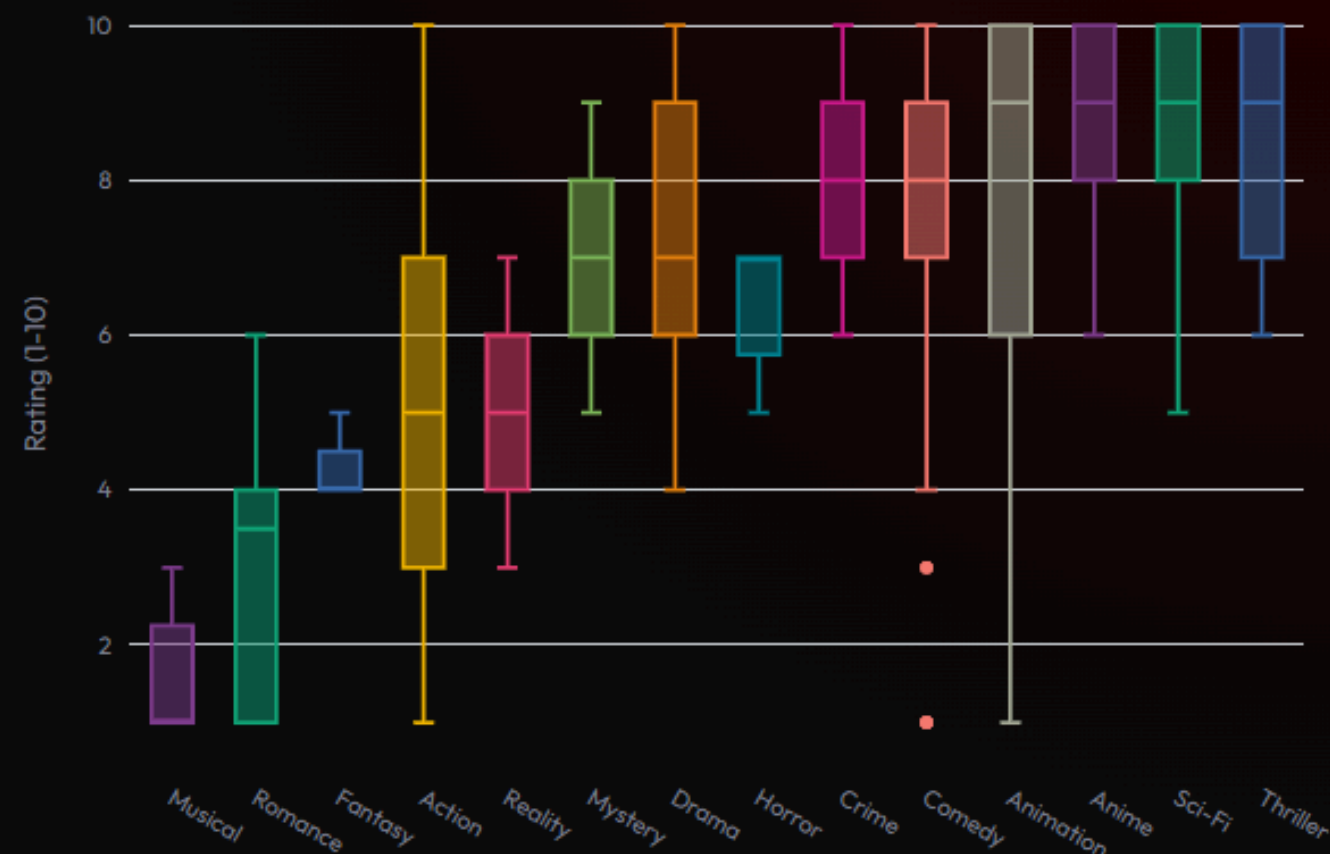

- My general taste in movies and series remains quite consistent over time.
- There was a temporary period where I watched a lot of Anime and Crime content.
- However, my viewing habits quickly returned to normal after that spike.

- I watch significantly more content on weekends.
- My viewing habits are much quieter during the work week.

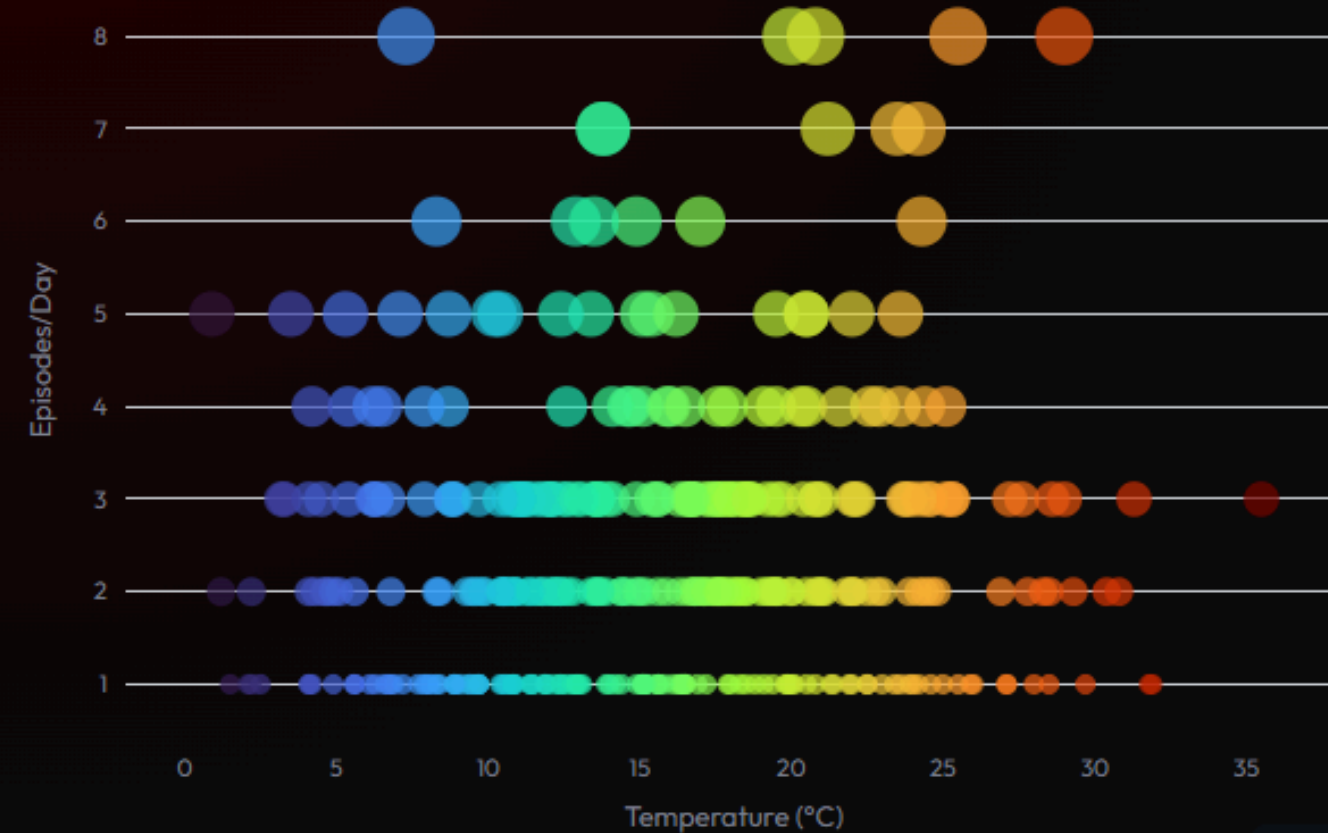

I mostly consume long-form content rather than single films(70) series.

RATINGS & CORRELATIONS

RATING DISTRIBUTION BY GENRE

TEMPERATURE VS VOLUME CORRELATION

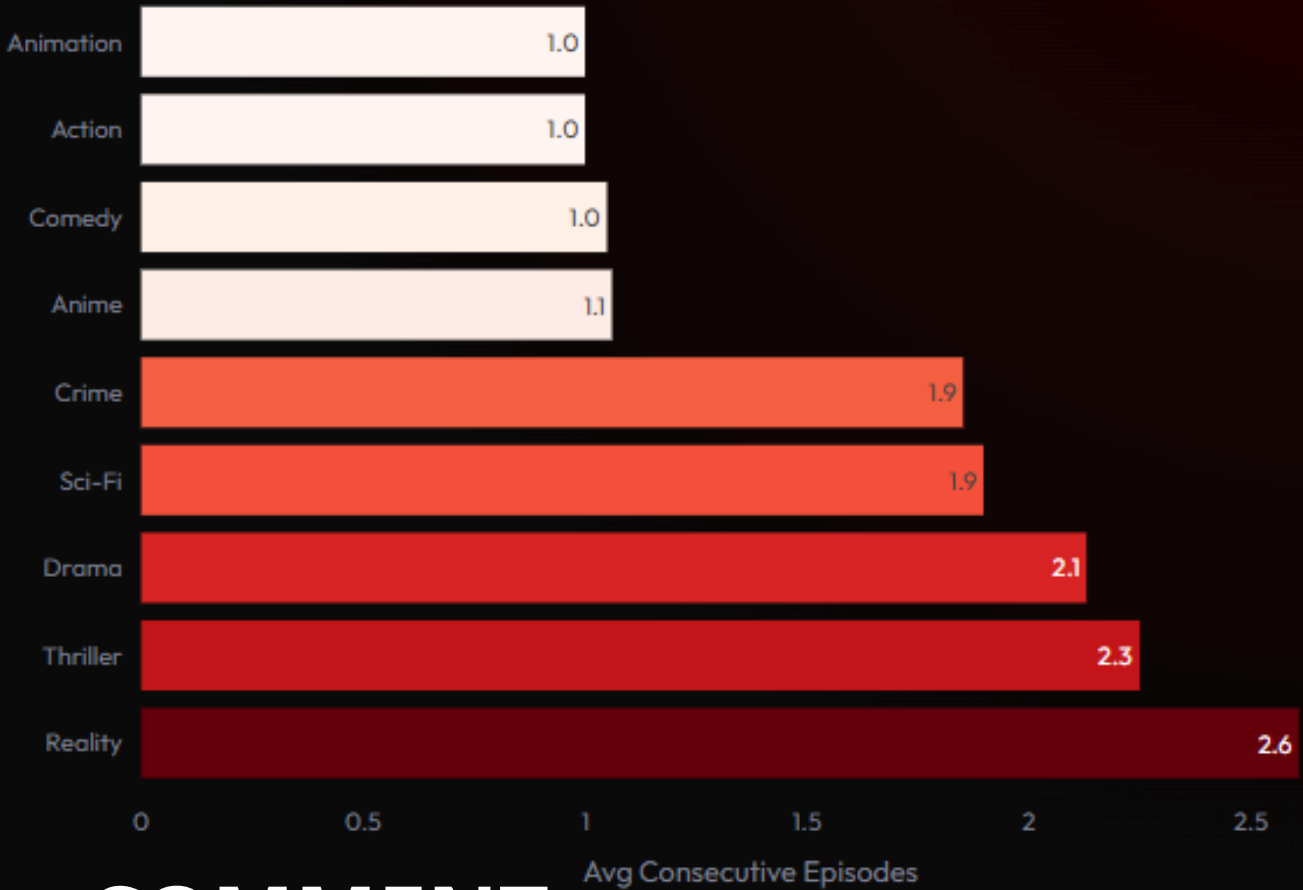

COMMENT

- I consistently rate Sci-Fi and Thrillers very highly.
- On the other hand, I rarely enjoy Musicals or Romance titles.
- My opinion on Action movies is very unpredictable; sometimes I love them, sometimes I hate them.

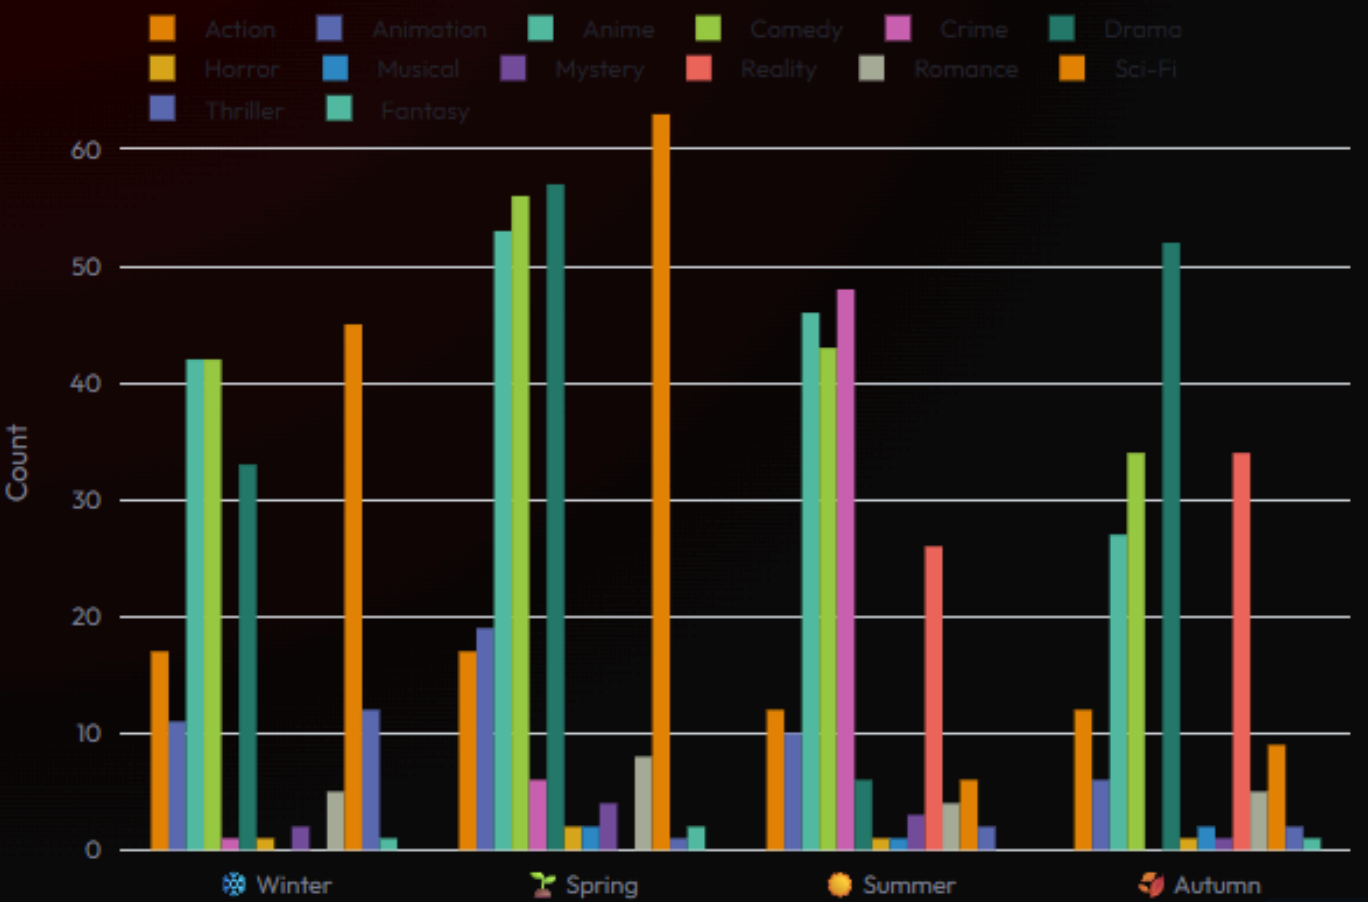

- Surprisingly, I watch a lot of content when it is warm outside (15°C - 25°C).
- Cold weather does not automatically mean I watch more

ADVANCED METRICS

BINGE VELOCITY (AVG STREAK)

SEASONAL GENRE PREFERENCES

COMMENT

I rarely binge-watch Animation, Action, or Comedy, averaging just one episode per sitting.(because i only watch them when im eating)

- Spring is my peak season for Action and Sci-Fi content.
- Summer sees a notable increase in Crime and Mystery viewing.
- Winter and Autumn have more balanced genre consumption

CONTENT RANKING

🔥 TOP RATED CONTENT

Brooklyn Nine-Nine: Saison 1: Épisode 19

Comedy • Cloudy

10

Arcane: Saison 2: Épisode 7

Anime • Cloudy
